Solomon Is... Adventure!

Explore the hidden paradise of the South Pacific archipelago, comprising of a vast group of 992 breathtaking tropical islands.

Experience a culture, rich with traditional customs, art, dance and the iconic sound of the panpipe music of 'Isabel, Malaita and Makira'. Modern Solomon Islands panpipe music incorporates the use of both the traditional instruments styles to form a panpipe band. This form of music was traditionally played by hitting open-ended bamboo tubes with coconut husks giving a pure and distinctive rhythm and beat.

Catch a glimpse of the fierceness of World War II battles and be touched by the bravery of soldiers by visiting historic war sites in and outside Honiara, on land and underwater. The passage of water between The Florida Islands and Guadalcanal is Iron Bottom Sound, aptly named for the numerous ships, aircraft and transport equipment that came to rest here during the World War II battles of 1942-1945. These wrecks have now become popular SCUBA diving sites.

Explore Honiara's cosmopolitan and colourful food market in downtown Honiara, a vibrant and lively melting pot of the Solomons!

Be mesmerized by the natural beauty of our many wildlife and marine parks including Marovo lagoon in the Western Province, the largest saltwater lagoon in the world and home to an array of teeming marine life. The Solomon Islands offers around 50 endemic species of birds and another 25 which it shares with Bougainville and Buka in Papua New Guinea.

Diving in the Solomon Islands has gained an enviable worldwide reputation that is unsurpassed. Throughout these magic islands is an endless variety of dive sites to suit all tastes and levels of experience. If you are not a diver, but interested in learning, there could be no better place to discover this completely new world, than the warm crystal clear waters around the Solomon Islands. There is an abundance of World War II history, there are numerous wreck dives and you can also experience an extraordinary array of differing reef structures and bio-assemblage.
